VERNALE

Nulla facilisi:

WINTER IS OVER AND
SPRING HAS COME

VERSO L'ALTO! THE FOUNDATION OF FRASSATI

The weekly minutes of VERAMENTE.

What's the news this week? We have to have minutes, and the easiest way is to make it a fun job to do.

AVALANCHES/ASTRONOMY: This is the Voice of the Volcano, and the Vernal equinox this weekend as well as the new moon, and Venus is approaching the moon once again as the evening star.

BUGATTIS: If you make coffee by boiling water, you are using "le puissance motrice de

fue" the same power of the stars, and if you shared a wood oven pizza that's the essence of VIVE LA COM-PAN-IE whether it's headquartered in Delaware or in a virtual DOMAIN. EVOLUTION brings us to ECUADOR, las islas de galapagos, and Riobamba to the Avenue of Volcanos. And the FOUNDATION had a good time with bootstrap and putting together the COR CURRICULUM, while the valdinyos, battled the VIRUS with canzoni and cookery.

WEEEEEEEEEEEEEEEEEE --THE GARDEN.
